EXHIBITOR DIRECTORY FOR ICT COMPANIES

August 31 - September 3, 2026

Pavilion Organizer

Powered by

WELCOME TO THE PAVILION OF THE KINGDOM OF BAHRAIN

Bahrain has a long history of embracing change and seizing opportunities. From the pearl trade to the oil era and now the digital revolution, the Kingdom has consistently adapted and prospered.

As a leader in economic diversification, Bahrain's non-oil sector now accounts for over 80% of its GDP. The Kingdom is committed to creating a supportive environment for startups, scaleups, and established companies to thrive in the digital age.

ABOUT ICT SECTOR IN BAHRAIN

For international tech companies exploring investment options, Bahrain stands out as a prime destination. The Kingdom boasts significantly lower operating costs compared to some regional competitors, offering up to 30% savings. Furthermore, Bahrain's robust digital infrastructure, extensive market access, and a talent pool of highly skilled professionals create a conducive environment for business growth and development.

This competitive advantage is further amplified by the Kingdom's pioneering spirit, evident across all sectors, from agile regulators to innovative public sector organizations and a dynamic entrepreneurial ecosystem. This fosters a culture of innovation and disruption, driving the emergence of new technologies and industries.

KEY FACTS ABOUT ICT SECTOR IN BAHRAIN

-  **5G Nationwide Coverage** enabling next-generation digital services, smart cities, and Industry 4.0 innovation
-  **Home to Global Cloud Providers**, including AWS, positioning Bahrain as a regional cloud and digital infrastructure hub
-  **Top GCC Destination for FinTech**, with over 150+ FinTech companies operating in the Kingdom
-  **Over US\$2 Billion ICT Market**, driven by investments in AI, cloud computing, cybersecurity, and digital transformation
-  **Bahrain Economic Vision 2030** continues to accelerate investment in AI, Smart Government, digital economy, and emerging technologies

ABOUT THE BAHRAIN PAVILION

The Bahrain Pavilion has increasingly become a platform to showcase the country's growing tech startup scene. By featuring these innovative companies, the pavilion highlights Bahrain's commitment to fostering a dynamic digital economy.

These startups often represent a diverse range of tech sectors, from e-commerce to AI and digital solutions. This focus not only provides these startups with valuable exposure to potential investors and partners but also positions Bahrain as a forward-thinking nation with a thriving entrepreneurial ecosystem.

Bahrain Technology Companies Society (BTECH) is a non-profit entity that was established in 2012. As part of the country's vision to improve its economic efficiency, we strive to fully elevate the status quo of the sector and bring the ICT companies in Bahrain to a competing level with its regional and international competitors.

BTECH aims to participate in the preparation of policies and regulations related to the field of technology in Bahrain, build productive relationships with similar local, regional, and international organizations, and support ICT companies and startups operating in Bahrain.

UData W.L.L. is a Bahrain-based artificial intelligence, data science, and digital transformation consultancy headquartered in Seef, Manama (CR No. 134497-1). The company helps public and private sector organizations transition from manual processes to secure, compliant, fully digital operations.

UData's services include custom web application development, AI and agentic automation, business process digitization, HR and governance documentation, strategic planning, and tender and bid management support. Solutions are designed around Bahrain's regulatory requirements, including Labour Law, GOSI, PDPL, and BTB tender standards, with bilingual Arabic-English documentation available where required. UData also develops proprietary HRMS, LMS, tender management, CRM, IT operations, and e-learning platforms.

UData's capabilities extend into applied AI for physical operations, including AI-powered computer vision for CCTV-based safety monitoring, detecting hazards such as PPE non-compliance and restricted-zone breaches with over 85% accuracy across 30+ risk categories. Its VR/AR immersive solutions enable safety and technical training through realistic simulation, reducing onboarding time and operational risk. On the geospatial side, UData delivers custom GIS platforms, satellite-based land and infrastructure monitoring, and migration support from proprietary to open-source systems, giving clients a unified view of AI, immersive training, and spatial intelligence.

Through its growing partner ecosystem, UData serves as the Bahrain delivery partner for Soothsayer Analytics and its enterprise agentic AI platform, AuGENT

FINTOLOGYA

Fintologya is a cloud-native card issuer-processor headquartered in Bahrain, providing the technology layer beneath modern card programmes for banks, fintechs and programme managers across MENA. The platform serves sponsor banks, fintechs and banks issuing payment cards. Its flagship platform, Fin24, delivers issuing, tokenization, real-time authorization, processing and settlement through a single API. Cards are issued virtually in under a second, provisioned to Apple Pay, Google Pay and Samsung Pay, and pressed as physical plastic on demand from the same record. Prepaid, debit, credit, BNPL and corporate products run on one account model and one engine, with spend, merchant, geography and velocity controls set at authorization and changed without reissuing cards. Fintologya is a Mastercard Network Enablement Partner at Premium tier, connected through Mastercard Cloud Edge, and has completed Mastercard host certification with direct production connectivity across EEMEA. The platform is independently validated against PCI DSS v4.0.1, with cardholder data resident in region. Founded in 2024 and engineered in Bahrain, Fintologya was built on a clear position; payment infrastructure for this region should be built here rather than licensed from abroad and operated locally. The company works from Bahrain across Saudi Arabia and Morocco.
